

### ABOUT US

**Pioneer & world leader  
in high efficiency  
oil-free chillers**

### KEY FACTS

#### Pioneer

Founded 2005 by  
Turboacor founder  
Roger Richmond-  
Smith

#### Technology

Development  
centers in Stuttgart,  
Montreal,  
Melbourne

#### Global

Manufacturing in  
Germany, Australia,  
Canada, USA,  
China, Brazil

#### History

Largest oil-free  
chiller installation  
base with some  
8000 installed

#### Expertise

Largest user of  
Turboacor  
compressors in  
the world

#### Know-how

Unparalleled  
experience across a  
diverse range of  
applications, climates  
and industries

### DECADES OF DEVELOPMENT

The Smardt engineering, development and manufacturing teams share more than 25 years' experience working together with magnetic bearings and oil-free centrifugal chillers – a greater body of oil-free centrifugal experience than any other chiller company in the world. The Group's long experience actually developing the Turboacor compressor technology and its applications brings the definitive high-performance range of oil-free centrifugal chillers to the world market.

### A QUANTUM LEAP IN ENERGY EFFICIENCY

Smardt has an installation base of over 8000 chillers, many in iconic buildings like the Great Hall of the People, Beijing; the Sydney Opera House and New York's Carnegie Hall.

Smardt is committed to providing energy efficient, sustainable heating and cooling solutions for the built environment; minimizing total cost of ownership for its customers and enhancing the planet for future generations.

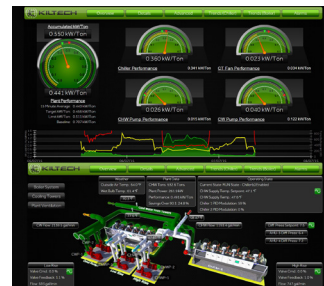

**WATER-COOLED  
60-3600 TR**

**AIR-COOLED  
60-600 TR**

**EVAPORATIVE  
60-300 TR**

**CPECS CHILLER  
PLANT OPTIMIZATION**

## V-CLASS

WATER-COOLED 350 - 3600 TR

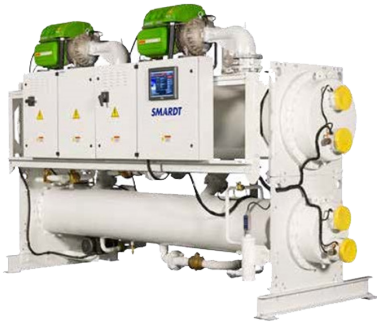

## T<sup>W</sup>-CLASS

WATER-COOLED 60 - 1200 TR

## G-CLASS

AIR & WATER-COOLED LOW GWP REFRIGERANT  
OPTIONS INCLUDING; 513A, R1234ZE, 515B

## T<sup>A</sup>-CLASS

AIR-COOLED 60 - 600 TR

## E-CLASS

EVAP-COOLED 60 - 300 TR
